# DESCRIPTION ON EPRX<GO>

- A2X is an independent licensed South African stock exchange authorised to provide a secondary listing venue for companies and is regulated by the Financial Sector Conduct Authority (previously the Financial Services Board) in terms of the Financial Markets Act. A2X clears all trades executed on its platform while settlement takes place via the existing proven infrastructure between Strate and its participants.
- A2X commenced trading on 6 October 2017.
- A2X adheres to the requirements and principles of the conventional self-regulatory organisation model and the provision of securities services that has come to be expected from an exchange within the context of the South African financial markets. That is, the listing of securities, the provision of an electronic trading facility for trading equity securities by authorised users as well as clearing and settlement facilities, with the requisite regulation of both issuers and authorised users.
- A2X currently lists only qualifying equity securities which are listed securities which have a primary listing on, and are regulated by another licensed exchange.
- A2X uses technology developed by the UK's [Aquis Technologies](#), a division of Aquis Exchange, which includes proven exchange matching and surveillance systems and a clearing platform custom-built for A2X. Aquis Exchange is authorised and regulated by the UK Financial Conduct Authority. The market leading exchange systems are fast and efficient. Its surveillance system has been designed to monitor trading across multiple markets and ensures that any trading anomalies are detected early.
