Media release

Sasol to list on A2X

Monday, 27 January 2020: Sasol Limited (share code: SOL) with a market cap of R166 billion has been approved for a secondary listing on [A2X Markets](#) on Monday, 3 February 2020.

Sasol was established in 1950 in South Africa and remains one of the country's largest investors in capital projects, skills development and technological research and development. The company retains its listings on the Johannesburg Stock Exchange and on the New York Stock Exchange.

Sasol Chief Financial Officer, Paul Victor, said "Sasol's decision to list on A2X is part of the company's commitment to continually find ways to increase value for shareholders as well as provide them with a variety of trading venue options."

A2X CEO, Kevin Brady said, "Sasol is one of South Africa's most well-known and iconic companies and we are delighted to be welcoming them onto our platform. As a global player with local roots and a pioneer in innovation for over six decades, this is a great endorsement for the merits of a secondary listing. Sasol investors will benefit from not only the direct saving of lower transaction fees on A2X but also the indirect savings that accrue as result of narrower spreads and increased liquidity."

The Sasol listing will bring the number of securities available for trade on A2X to 34 with a combined market capitalisation of over R2 trillion. A2X has listings from many key sectors, including media, mining, banking, retail, FMCG, financial services, insurance, healthcare and telecommunications. In addition, A2X has also attracted listings in exchange traded products including Absa's three precious metal exchange traded funds and Investec's exchange traded notes.

A2X is a licensed stock exchange which provides a secondary listing venue for companies. It is regulated by the Financial Sector Conduct Authority and the Prudential Authority of the South African Reserve Bank (SARB) in terms of the Financial Markets Act. A2X began trading in October 2017 and has eight approved brokers, including 5 of the top 6 largest brokers as measured by value traded.
